

To our valued customers

25<sup>th</sup> June 2020

**Confirmation of use for substances subject to authorisation according to Annex XIV of Regulation (EC) No. 1907/2006 (REACH)**

Dear Sir/Madame,

Referring to the subject mentioned in the headline we kindly ask you to fill in the questions enclosed, sign the document and send back to us, before 17<sup>th</sup> July 2020.

**Please note:** Products that contain chromium trioxide will only be sold to downstream users that have applications covered by a pending or approved REACH authorization.

Please, fill it out and send it back to [sevin.cetin@macdermidenthone.com](mailto:sevin.cetin@macdermidenthone.com).

Thank you for your support.

Kind regards,

MacDermid Enthone GmbH

We <sup>1)</sup>, BST RODS, S.A.

hereby confirm to use the substance

**Chromium trioxide (EC no. 215-607-8),**

which we purchase from MacDermid Enthone **as such or in preparations**, exclusively within the scope of existing applications for authorization as described below <sup>2)</sup>.

**We have one or more of the following uses and these are covered under Article 56 (2) by the applications for authorisation of the members of CTACSub <sup>3)</sup>:**

- Formulation of mixtures
- Functional Chrome Plating (Hard Chrome Plating)
- Functional chrome plating with decorative character (Decorative Chrome Plating and/or etching of plastics)
- Surface treatment for applications in the aeronautics and aerospace industries, unrelated to Functional chrome plating or Functional chrome plating with decorative character
- Surface treatment (except passivation of tin-plated steel (ETP)) for applications in various industry sectors namely architectural, automotive, metal manufacturing and finishing, and general engineering (unrelated to Functional chrome plating or Functional chrome plating with decorative character)
- Passivation of tin-plated steel (ETP)
  
- For our uses we have submitted own applications for authorisation to ECHA, which have already been positively confirmed. Please indicate the authorisation number(s):**
  
- For our uses we have submitted own applications for authorisation to ECHA, which have not yet been finally confirmed. The applications were submitted in time before the latest application date in accordance with Article 58(1)(c)(ii).**
  
- Our use is exempted from authorisation according to Article 56 for the following reason:**
  
- As a retailer without own use we confirm to request a corresponding confirmation from our customers.**
